Friday, May 31 5PM - 8PM

Jean Webb Park
30 Riverside Drive
(under the Haywood Rd. bridge)

WEST ASHEVILLE BUS SHELTER

A joint project between the Asheville Design Center, City of Asheville and New Belgium Brewing, the project will bring a new bus shelter to the Craven St. and Haywood Rd. interstecion. Local history and community design input are the two key ingredients for shaping the design of the shelter!

SUMMER DESIGN BUILD PROJECT

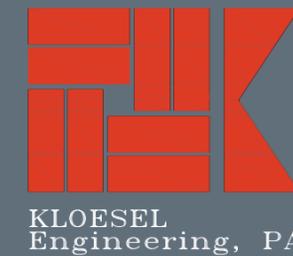

The 2013 studio is tasked with designing and constructing a series of structures along the French Broad River in the River District. The signature structure is a new footbridge that will connect a series of existing and planned public placemaking spaces adjacent to the river.

A PROGRAM OF THE ASHEVILLE DESIGN CENTER

RIVERSIDE DRIVE REDEVELOPMENT

An assessment of redevelopment and open space options on ten acres of City-owned land in the River District. The local team includes landscape architects, urban designers, architects, engineers and real estate economists. We need your ideas and comments!

OPEN: MISSION HEALTH PLACEMAKING PROJECT

Spearheaded by OPEN, The River District Placemaking Project will create a public place for pedestrians to recreate and connect. By also providing a dynamic outreach and marketing platform for Mission Hospital, it will promote health and wellness in the community and offer much-needed way-finding infrastructure.

Outreach Projects Engaging Neighborhoods
